Sacred Work

My name is Vicki. I am a non-denominational Minister ordained in Sacred Arts and Healing. It is my dream to bring sacred tools to everyone, everywhere, who's desire is to enhance their own personal or professional, spiritual journeys.

I am available by phone or appointment for consultations to discover the right tools for you and to guide you on a journey to find them and the Spirits within these creations, that are there to work with you. We are all related, walking as one to the heartbeat of our Mother Earth.

Credentials

I am a graduate of Lynn Andrews Four Year Mystery School for Sacred Arts and Training. I have completed Michael Harner's Foundation for Shamanic Studies Basic Shamanism course, the Harner 5-day Intensive for Shamanic Counseling, Hank Wesselman's Shamanic Healing Workshop and all four of Margaret Hart Lewis' Wisdom Walks Series of online courses relating to the attributes of intuition at each life stage (Child, Adolescent, Adult and Sage/Elder).

Interests

My interests include most anything that includes time with Mother Nature. I love the water and the trees. I make drums and rawhide rattles, feather fans, leather pouchs and medicine bags, leather shawl collars and capes. I love creating with my hands and work with a wonderful group of Mono Indian women in North Fork, CA who are teaching me beadwork and basket making.
